

## Broadband Information Sheet

### Truth or Consequences Municipal Schools

---

In support of the Governor's Broadband for Education (BB4E) Initiative, the New Mexico Public Education Department (PED) is sponsoring Statewide Price Agreement Awards aimed at providing more affordable Internet Access Services for NM Public Schools, including Charter Schools, and Libraries.

This sheet consolidates available broadband data, specific to your hub location(s), in preparation for the upcoming 2017 E-rate cycle competitive quoting process for Internet Access Services. **If you did not receive a quote, have a location stated in error, or have a new location needing a quote, please be aware that awarded Providers may change or add service locations as indicated in their existing price agreements.**

Data Sources for this report include: 1) Statewide price agreement awards which are monthly quotes by location (not to exceed amounts) under RFP # 70-000-16-00013 for Educational Institutions, and Libraries, 2) 2016 E-rate data for costs and 1Mbps per student goal tracking, and 3) New Mexico Broadband Program's data repository for provider and mapping data. Please be aware that these data sources exist mostly through self-reporting mechanisms and may be somewhat outdated or incorrect, despite our best efforts to ensure accuracy.

### Internet Access Service Quotes by Location

This section displays monthly not to exceed amounts by bandwidth for On-Net and/or Off-Net quotes specific to your known location(s). Definition reference:

**"On-Net"** means Educational Institutions in the defined districts within the State of New Mexico that the Primary Contractor will be proposing a direct connection to On-Net Internet Access Services, which is in the Primary Contractor's service area. This excludes any fiber construction services and/or special construction.

**"Off-Net"** means Educational Institutions in the defined districts within the State of New Mexico that the Primary Contractor will be proposing a direction connection to Off-Net Internet Access Services, which is outside of the Primary Contractor's service area. This may include fiber construction services and/or special construction, and to meet the applicant's need, this may include the Offeror partnering with other providers.

Truth or Consequences School District currently **does not meet** the Governor's goal of 1Mbps per student with 242 kbps per student.

1. **Arrey Elementary School, P.O. Box 336, Arrey, NM 87930**

Provider Name	Monthly Not to Exceed Amounts by Bandwidth									
	100 Mbps	200 Mbps	500 Mbps	1 Gbps	2 Gbps	5 Gbps	10 Gbps	25 Gbps	50 Gbps	100 Gbps
*Windstream	\$1,090	\$1,431	\$3641	\$6,028						

\*On-Net Quote that includes Additional Expenses other than Internet Access Services
